EP-430H

12 Ton Remote Compression C-Head with Rubber Boot

www.huskiertools.com

HuskieToolFacts

Specifications

Output	12 Ton
Weight	10 lbs.
Length	11"
Jaw Opening	1.2"

Connector Range

Lugs	Up to 750 MCM Cu
Splices	Up to 600 MCM Cu

Feature

- Protective Rubber Boot on "C" Head

The **EP-430H** is a remote C-head that requires an external 10,000 psi pumping source for operation. This unit has a larger jaw opening than our EP-410H. The 1-3/16" opening allows the user to compress larger splices up to 600 MCM. The EP-430H is a single-acting, spring return tool. Its trim design allows for easy handling in field applications. This unit is supplied with a 3/8" male, screw type coupler, metal carrying case and die tray. We recommend the use of our non-conductive, high pressure hose.

The EP-430H accepts "U" type dies designed to fit all 12 ton tools. Unique features include a knurled handle shank, a pull die release button on top of the C-head, and a push button die release on the opposite jaw.
