The **HP-700** is a portable, tough, hydraulic steel pump that has two speed pumping pistons for rapid advance and an external adjustable pressure setting from 4,000 to 10,000 psi output. An internal oil bladder allows the tool to be used in any position.

Our exclusive replaceable, by-pass cartridge is standard in the HP-700. Field repairs and pressure adjustments can be made in minutes. Use our PG-1 gauge for pressure adjustments.

NOTE: When using any of these high pressure tools, always use 10,000 psi rated non-conductive hose (NC-16 Series).
