PL-S20

PL-S20

Underwater Hydraulic Cutter with Nickel Plating

Specifications

Output	4.4 Tons (3.9 mt)
Weight	6 lbs. (2.7 kg)
Size	16" L (40.6 cm)
Jaw Opening	.75"
Plating	Nickel

Cutting Capacities

Wire Ropes	5/8", 16mm
Soft Steel Bolts	1 1/16", 17mm
Rebar, Ground & Anchor Rod	1/2", 13mm
Standard Guy Wire	1/2", 13mm

Features

- Minimal Pumping Effort Required to Produce Output Tonnage
- Nickel-Plated for Underwater Use
- Salt Water Corrosion Resistant
- Head Rotates 180° For Easy Positioning

Need Nickel Plating?

Huskie Industrial Tools offers nickel plating on any of our tools. Please contact us at 1-800-860-6170.

Make clean cuts with minimal effort

The **PL-S20** is a saltwater resistant, nickel-plated cutter for use in underwater environments. Its recommended uses include: marine nautical cutting, emergency cutting of stainless steel wire rope rigging and hardware, underwater rebar and cable cutting, and yacht mast rod cutting up to 1/2".

No need for difficult tools like hacksaws, acetylene cutting torches or pneumatic cutting tools, the PL-S20 requires only minimum pumping effort to produce specified output tonnage. Especially designed for use by the U.S. Coast Guard, Army Corp of Engineers, offshore drilling companies, longshoremen and port authorities.

NOTE: Flush with fresh water to remove salt after each use.
